Alüminyum üretim alanında yıllar boyu geliştirdiğimiz üretim teknikleri, bilgi ve tecrübe ile Türkiye bisiklet endüstrisine dahil olmanın haklı gururunu yaşıyoruz.

KOREL Elektronik Sanayi ve Ticaret A.Ş. 1988 yılında beyaz eşya sanayi için alüminyum malzeme üretmek amacı ile faaliyete başlamış, yıllar içerisinde malzeme çeşidi ve üretim kapasitesini arttırmaya devam etmiştir. Isıtma ve soğutma alanında üretim yapan yerli ve yabancı beyaz eşya ve otomotiv yan sanayi için yıllık 20.000 ton alüminyum malzeme üretimi yapılmaktadır. Korel Elektronik Sanayi ve Ticaret A.Ş. Afyon'da Korel Thermal Resort Otel ile kongre ve turizm alanında da faaliyet göstermektedir. Grup faaliyetleri içinde büyükbaş hayvan yetiştirme ve jeotermal kaynaklı teknolojik seracılık faaliyetleri de bulunmaktadır. Ham alüminyum malzemeyi, kendi bünyesinde bulunan döküm ve boru fabrikalarında işleyerek mamül haline getiren Korel Elektronik Sanayi ve Ticaret A.Ş. 2015 yılında alüminyum bisiklet ile bisiklet sektöründe kullanılan tüm alüminyum parçaların yerli imkanlarla üretimi için yeni bir yatırım kararı almıştır. Alüminyum kadrolu bisikletlerin her gelir grubundan bisiklet severlere ulaştırılabilmesi amacı ile geliştirilen projenin sonucunda, bisikletlerimizin CORELLI markası ile, alüminyum parça ve diğer ekipmanlarının ise DACRON markası ile Türkiye bisiklet pazarına sunulmasına karar verilmiştir. Tamamen kendi imkanları ile kendi alüminyum kadrosunu üretebilen Korel Elektronik Sanayi ve Ticaret A.Ş., alüminyum malzeme üretim konusundaki bilgi ve deneyimini bisiklet üretim alanında da kullanarak bisiklet sektöründe yeniliklerin öncüsü olacaktır. 25.500 m2 kapalı alana sahip bisiklet fabrikamızda, kadro üretimi için robotik kaynak bölümü, T4 - T6 fırın bölümü, boyahane, montaj hattı, etiket uygulama hattı ve kadro test laboratuvarı bulunmaktadır. Korel Elektronik Sanayi ve Ticaret A.Ş. olarak amacımız sıfır hata ile üretim yapmak ve alüminyum kadro ile üretilen bisikletlerin konfor ve hafifliğini her gelir grubundan bisiklet kullanıcısına ulaştırabilmektir. 2024 satış dönemine girerken dünya bisiklet endüstrisindeki gelişmelere paralel olarak ürün çeşitlerinde ve teknik özellikleri itibari ile tamamen yeni bir ürün yelpazesi hazırlayarak beğenimize sunmuş bulunmaktayız.

Ali KORKMAZ

Yönetim Kurulu Başkanı

We are proud to be included in the bike industry in Turkey with many years of experience , knowledge and developed production techniques. Korel Elektronik San ve Tic A.Ş has begun his production story to produce aluminium parts for white appliance industry. With in the years , company has increased product range and capacity. Our company has begun to produce aluminium parts, frames, rims also other parts in order to produce bikes by using internal casting lines. With aluminium frame our primary brand is CORELLI and secondary brand is DACRON. In this contaxt we produce bikes for all kind of customers with every level of income. With the experience and knowledge in aluminum production, our company will be the pioneer of innovations in the bicycle sector, which produces its own frames. Furtermore rims, carriers , forks and any relevant parts. In 25500 sqm , we have robotic welding lines, T4 and T6 ovens , painting lines , assembling line , decal painting and test labratory. As Corelli, our aim is to produce with zero error and to convey the comfort and lightness of bicycles produced with aluminum frame to riders of all income groups. As we are moving to 2024, in parallel with the developments in the world bicycle industry, we have presented a completely new product range in terms of product range and technical features.

A close-up, artistic photograph of a bicycle handlebar. The handlebar is dark, possibly black or dark blue, and has a textured grip. A silver bolt is visible, securing the handlebar to the stem. The background is blurred, showing the chain and other parts of the bicycle, with a warm, golden light illuminating the scene.
